### PROJECTS

#### • Outcome Based Education (OBE)

Jan 2024 - Present

An OBE system implemented for over 8000 students and 510 staff. It manages and calculates CIA students internal marks for 50,000+ records in a centralized database, ensuring the data accuracy and streamlined academic analysis and reports. This live system is currently used at Jamal Mohamed College for real-time OBE mark entry.

#### • Product Ordering and Quotation Management (UPVC)

Dec 2024 - Apr 2025

A full-featured quotation system for managing doors windows and louver orders. Supports customer profiles printable quotes report generation and order tracking. The system simplifies the order process and ensures consistent professional customer interaction. This live system is currently used at Champion products company.

#### • Charitable Trust (AL Muhmin Islamic Trust)

Jan 2025 - Present

A secure trust management platform for tracking member contributions and donation distributions. Includes date-wise entry, fund balance monitoring, and personalized member dashboards. An admin panel ensures centralized control of operations and records. This live system is currently used by the Trust Management committee.

#### • Portfolio

Jan 2025 - Feb 2025

A fully responsive and modern personal portfolio designed with Tailwind CSS, showcasing a collection of web development projects, creative UI designs, and technical skills. It reflects my passion for clean code, user-centric interfaces, and attention to responsive design. Explore my work and journey at <https://hamdhan--portfolio.web.app>
